

Model No.: HD-ATT60

Aircraft Towing Tractor

Model No.: HD-ATT60

Aircraft Towing Tractor

The HD-ATT60 aircraft towing tractor is a reliable and cost effective design equipment which provides the aircraft towing and pushing services for the aircrafts like A310, A321-200,A318, A319, A320,B717,B737,B757,TU-154M,TU-204,MD-83,MD-90,CRJ 700,CRJ900,Bombardier Q40, Saab 2000, ATR42-500 etc. It complies with the requirements of IATA AHM905, IATA AHM910, IATA AHM913, IATA AHM915 and MH/T6017.

FEATURES:

- *Engine: PERKINS (1104D-44TA);74.9KW/2400rpm;410NM/1400rpm
- *Emission: EU Stage IIIA
- *Transmission: DANA T12465 Automatic, 4 forward/3 backward
- *Front axle: DANA driving axle with leaf spring suspension.
- *Rear axle: DANA driving axle.
- *Four wheel driving.
- *Hydraulic steering System
- *Emergency electrical pump for emergency steering operation.
- *Hydraulic dual brake circuit.
- *Warm and Cool air condition for optional.

SPECIFICATIONS:

- *Dimensions: 5328×2110×1960mm (LxWxH)
- *Wheelbase: 2200mm
- *Maximum speed: 25km/h(forward), 18.7km/h(backward)
- *Gross weight: Approx. 15000kgs
- *Turning radius: 5600mm
- *Ground Clearance: Approx.220mm
- *Tyre width: 1790mm
- *Maximum draving ramp: 25%
- *Brake distance: ≤3.4m
- *Towing capacity: ≥150,000kgs
- *Draw pull: ≥120KN
- *Tyre specifications: 8.25R15
